**Note from the director:**

We are needed. We are needed to organize and make visible something that is meant to be kept silent and invisible. We have been exposing this crime for decades and yet sexual abuse, child pornography and child prostitution are still epidemic.

Hopefully this walk will **inspire** others to say, **"Enough"**. Hopefully this walk will raise awareness, help organizations come together and help youth and adult survivors express themselves. We must work together to be visible, to speak out against sexual violence and to affect change. **THERE IS HOPE.**
